## Footnotes

1. All quarterly results are unaudited.

Rinker's US and Australian subsidiaries each generate virtually all revenue and incur all costs in their local currency. As a result, directors believe their performance is best measured in their local currency. At the group level, Rinker Materials represents around 80% of group result. As a result, US\$ performance represents the most appropriate measure of Rinker's performance and value. Under A-IFRS, Rinker's selected reporting currency is US\$, although Readymix results will continue to be disclosed in both US\$ and A\$.

2. PAT represents the Net profit attributable to members of Rinker Group Limited. EBIT represents Profit before finance and income tax expense. EBITDA represents EBIT prior to Depreciation and Amortisation.

3. Free Cash Flow represents Net cash from operating activities less (1) operating capital expenditure included in cash flows from purchase of property, plant and equipment, (2) interest paid and (3) payments for shares held in trust under long-term incentive plans.
